Embryo Storage
Embryos will be frozen and stored by Embryo Transfer Services of SA unless otherwise instructed. Insurance is your responsibility.
$10/embryo shipping insurance is payable on dispatch unless we are advised in writing that you don't require insurance

Alternative storage instructions Dispatch to _____

Mating list and semen requirements
You will be notified of embryo production 10 days from collection. In the IVF system 1 straw can be used for 3 batches of oocytes. Up to 8 donors can be pooled in 1 batch. Oocyte pooling will result in more embryos. DNA testing will be required for parentage. Collections are generally once a week, semen is required by 1pm on the day of collection. If you are using a non-proven bull 2 straws are required.

Declaration

I, _____ owner of the above mentioned animal/s, agree to pay any cost involved in the treatment of injury or ill health associated with the animal.

Signed._____Date _____
